Don Allan, CEO of Cielo, states “We are happy to have worked with 8020 Connect to create this corporate video and provide a visual showcase of our first refinery in Aldersyde. We believe this video is a great way to allow our shareholders and investors to get a look at our highly anticipated refinery for themselves. Seeing our technology come to life has been very exciting and we’re very proud to share this with them.”

Founder and CEO of 8020 Connect, Darren Stewart, states “Through the 8020 platform, Cielo can open the lines of communication to ensure each shareholder and interested investor can stay up to date with corporate developments and be engaged through social media. The social interactive structure of the platform provides an opportunity to shareholders to become a part of the communication process and support the development of the corporation’s investor audience.”

### About 8020 Connect

8020 Connect is a social and interactive investment community which expands the way shareholders and interested investors access and gather information from public corporations. Built as a hybrid social media and shareholder and management engagement platform, corporations can direct the flow of information to prospective and existing investors through both static and dynamic content. This will allow public companies to build their investment brand and investor awareness while maintaining digital media compliance in a growing online investment community.

### **About Cielo Waste Solutions Corp.**

**Cielo Waste Solutions Corp.** is a publicly traded company with its shares listed to trade on the Canadian Securities Exchange (“CSE”) under the symbol “CMC”. Cielo holds the exclusive license for the global rights to a transformational, patent-pending, technology engineered to convert garbage-derived feedstocks to renewable diesel, at a significantly lower cost than biofuel companies. With landfills being one of the

world's leading contributors to Green House Gas emissions and being projected to double in size over the next 7 years, Cielo can potentially resolve this crisis, on a cost-effective basis, by converting multiple different garbage-derived feedstocks, including sorted municipal solid waste (garbage), wood and agriculture waste, tires, blue-box waste, all plastics and virtually any other cellulosic waste product into high grade renewable diesel.

***Cautionary Note Regarding Forward-looking Statements***

*This news release contains certain forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "anticipate", "achieve", "could", "believe", "plan", "intend", "objective", "continuous", "ongoing", "estimate", "outlook", "expect", "may", "will", "project", "should" or similar words, including negatives thereof, suggesting future outcomes.*

*Forward looking statements are subject to both known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company, that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking statements, including but not limited to: the use of proceeds of the offering, receipt of all necessary approvals of the offering, general business, economic, competitive, political and social uncertainties; negotiation uncertainties and other risks of its industry. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.*

*Forward-looking statements are not a guarantee of future performance and involve a number of risks and uncertainties, some of which are described herein. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause the Company's actual performance and results to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Any forward-looking statements are made as of the date hereof and, except as required by law, neither the Company assumes no obligation to publicly update or revise such statements to reflect new information, subsequent or otherwise.*

*The CSE has not reviewed and does not accept responsibility for the adequacy or accuracy of the content of this news release.*
