

## **Cielo Confirms Start-Up of Aldersyde Continuous Flow Renewable Diesel Refinery**

**Vancouver, British Columbia, Canada / June 22, 2018 / Cielo Waste Solutions Corp.** ("Cielo" or the "Company") (CSE:CMC) is pleased to announce that the Company has received confirmation from its supplier that the last item required for the start-up of its first commercial refinery in Aldersyde, AB (the "Refinery"), thermal oil, has been loaded and shipped this morning. The estimated time of arrival is next week. Based on this timeline, and as anticipated in the Company's previous news release(s), Cielo is pleased to confirm that the start-up of the Refinery is scheduled for next week.

Don Allan, President and CEO of Cielo, stated "With the confirmation of our last item landing at Cielo's Aldersyde plant next week, we are full steam ahead for the startup of our continuous flow renewable diesel refinery. I would like to thank the team for their commitment and their willingness to continue to work around the clock to ensure that the on-stream date is met. Our phase 1 project is just in the cross hairs and we are delighted that we are at the footsteps of a "game changing" technology that converts cellulosic waste into renewable fuels. We believe that the potential positive impact of our technology on both the world and our shareholders will be massive and we are now counting the days until we push the start button and kick off the commissioning phase."

### **About Cielo Waste Solutions Corp.**

**Cielo Waste Solutions Corp.** is a publicly traded company with its shares listed to trade on the Canadian Securities Exchange ("CSE") under the symbol "CMC". Cielo holds the exclusive license for the global rights to a transformational, patent-pending, technology engineered to convert garbage-derived feedstocks to renewable diesel, at a significantly lower cost than biofuel companies. With landfills being one of the world's leading contributors to Green House Gas emissions and being projected to double in size over the next 7 years, Cielo can potentially resolve this crisis, on a cost-effective basis, by converting multiple different garbage-derived feedstocks, including sorted municipal solid waste (garbage), wood and agriculture waste, tires, blue-box waste, all plastics and virtually any other cellulosic waste product into high grade renewable diesel.

### **Cautionary Note Regarding Forward-looking Statements**

*This news release contains certain forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words*

**Cielo**

Waste Solutions Corp

*such as "anticipate", "achieve", "could", "believe", "plan", "intend", "objective", "continuous", "ongoing", "estimate", "outlook", "expect", "may", "will", "project", "should" or similar words, including negatives thereof, suggesting future outcomes.*

*Forward looking statements are subject to both known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company, that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking statements, including but not limited to: the use of proceeds of the offering, receipt of all necessary approvals of the offering, general business, economic, competitive, political and social uncertainties; negotiation uncertainties and other risks of its industry. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.*

*Forward-looking statements are not a guarantee of future performance and involve a number of risks and uncertainties, some of which are described herein. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause the Company's actual performance and results to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Any forward-looking statements are made as of the date hereof and, except as required by law, neither the Company assumes no obligation to publicly update or revise such statements to reflect new information, subsequent or otherwise.*
