Mr. Allan has an extensive background in business development, engineering, marketing and project development.

Cielo Waste Solutions Update Webinar
Presented by: Investor Cubed
September 2nd, 2021

INVESTOR CUBED

[Cielo Waste Solutions CEO Don Allan | September 2nd 2021 | Update Webinar by Investor Cubed](#)

This is an Update Webinar given by Don Allan, the CEO of Cielo Waste Solutions, which took place on September 2nd, 2021, hosted by Investor Cubed. Don gives ...

Highlights from the webinar.

- ✓ Cielo's strategic intent is to become Canada's leading waste to fuel company using its environmentally friendly and economically sustainable technology.
- ✓ There has been an increase in demand for Cielo's waste to fuel products.
- ✓ Cielo's revenue stream is not dependent on the desulfurization process. However, a product with a lower sulfur content ought to increase the profit margin of Cielo's waste to fuel product.
- ✓ Cielo's mid to long term plans remain intact.
- ✓ Operational update:
 - The Aldersyde "Pilot" plant has been producing in batch mode since opening in July 2019.
 - Cielo's proprietary technology has been proven out at bench scale and at the Aldersyde commercial pilot plant.

- The Company has reached 1000-lph and has historically produced on a 24-hour continuous basis. Cielo has temporarily slowed production to improve the consistency of the product.
- We have internal engineers and external engineering consulting firms engaged in continuous optimization and improvements for the development of full-scale facilities.
- ✓ The desulfurization system is anticipated to be commissioned in September 2021. The Company expects to achieve its objective of producing fuel with a sulfur content under 15 parts per million.
- ✓ Letter of Intent in place to enter into an agreement for the sale of Naphtha. This is a potential high margin revenue stream for Cielo.
- ✓ Cielo is well capitalized and in a strong position to aggressively move forward towards revenue and the construction of facilities.
- ✓ Cielo purchased a site with amenities in Fort Saskatchewan, Alberta and it is expected to accelerate the build-out of the proposed facility.
- ✓ Engineering, site planning, and permitting are in process for the first joint arrangement site in Dunmore, Alberta.
- ✓ Negotiation of the joint arrangement agreement with Renewable U Energy Inc. is in progress and expected to be finalized in the near future.
- ✓ Multiple additional RUEI Joint Arrangement sites are being evaluated across Canada and potential entry into the US with pending RFP about to be released.
- ✓ Cielo is in the process of setting up a new office in downtown Calgary to facilitate the growth of the Company.

About Cielo Waste Solutions Corp.

Cielo is a publicly traded company with a proprietary technology that transforms landfill garbage into renewable high-grade diesel, kerosene (aviation jet and marine fuel) and naphtha. Cielo's proven and patented technology is currently being deployed in the Company's Aldersyde, AB facility, where wood

waste is currently being converted into renewable fuels. Cielo's experienced management team is well positioned with strategic partners in place to expand aggressively across Canada, into the US and then globally. Utilizing waste/feedstock that will be used in the Company's green facilities is the world's most available and inexpensive feedstock, garbage; including household, commercial/ construction/demolition garbage, used tires, railway ties, telephone poles, as well as all types of plastic, some of which currently cannot be recycled and/or deposited into landfills. **Cielo's goal is to manufacture renewal fuel while ridding the world of unwanted and problematic garbage.**

Cautionary Note Regarding Forward-looking Statements

This News Release contains certain forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "anticipate", "achieve", "could", "believe", "plan", "intend", "objective", "continuous", "ongoing", "estimate", "outlook", "expect", "may", "will", "project", "should" or similar words, including negatives thereof, suggesting future outcomes.

Forward-looking statements are subject to both known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company, that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking statements. CIELO is making forward looking statements related to updates from Webinar hosted September 2, 2021. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

Forward-looking statements are not a guarantee of future performance and involve a number of risks and uncertainties, some of which are described herein. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause the Company's actual performance and results to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Any forward-looking statements are made as of the date hereof and, except as required by law, neither the Company assumes no obligation to publicly update or revise such statements to reflect new information, subsequent or otherwise. The TSXV, OTCQB and, WKN, have not reviewed and does not accept responsibility for the adequacy or accuracy of the content of this News Release.
