Scope and Reliance

1. While the Committee has the responsibilities, duties and authorities herein, it is not required to plan or conduct audits or to determine that the Company's financial statements and disclosures are complete and accurate or are in accordance with generally accepted accounting principles and applicable rules and regulations. These are the responsibilities of management and the Auditors. The Committee, its Chair and any of its members who have accounting or related financial management experience or expertise, are members of the Board, appointed to the Committee to provide broad oversight to the financial disclosure, financial risk and control related activities of the Company, and are specifically not accountable nor responsible for the day-to-day operation of such activities. Although designation of a member or members as being "financially literate" or a "financial expert" is based on each such individual's education and experience, which that individual will bring to bear in carrying out his or her duties on the Committee, designation as being "financially literate" or a "financial expert" does not impose on such person any duties,

obligations or liability that are greater than the duties, obligations and liability imposed on such person as a member of the Committee and Board in the absence of such designation. Rather, the role of any financially literate individual or financial expert, like the role of all Committee members, is to oversee the process and not to certify or guarantee the internal or external audit of the Company's financial information or public disclosure.

2. The Committee and each member of the Committee shall, absent actual knowledge to the contrary (which shall be promptly reported to the Board), be entitled to rely on (i) the integrity of those persons or organizations within and outside the Company from which it receives information, (ii) the accuracy of the information provided to the Committee by such persons or organizations, and (iii) representations made by management of the Company, the Auditors of the Company, independent counsel, and other advisors and experts to the Company and its subsidiaries.

Pre-Approval Policies and Procedures

The Committee must approve all auditing services to be provided by the Auditor and non-audit services to be performed for the Company or any affiliated entities by the external auditor or any of their affiliates subject to any *de minimus* exception allowed by applicable law. The Committee may delegate to one or more designated independent members of the Committee the authority to pre-approve non-audit services, provided that any audit or non-audit services that have been pre-approved by any such delegate of the Committee must be presented to the Committee for ratification at its first scheduled meeting following such pre-approval.
