

Cielo Announces Appointment of Executive Vice President, Operations

VANCOUVER, British Columbia, Canada (July 15, 2022) – Cielo Waste Solutions Corp. (TSXV:CMC; OTCQB:CWSFF) (“Cielo” or the “Company”), a waste-to-fuel environmental technology company, today announced the appointment of Ryan Carruthers as Executive Vice President, Operations.

Mr. Carruthers has been employed with Cielo since August of 2021. He has 22 years of oil and gas experience in leadership and operational roles, with a track record of successful process optimization and operational excellence while working with energy sector leaders.

Ryan Jackson, Interim CEO, commented: “The fact that we have a person of Ryan’s technical knowledge and management experience at Cielo allows us to continue to execute on our stated goals, without pause. We are excited to welcome Ryan into an expanded leadership role in the Company and believe Ryan’s technical expertise and unwavering focus on project execution will be integral to Cielo’s future success.”

ABOUT CIELO

Cielo Waste Solutions Corp. was incorporated under the *Business Corporations Act* (British Columbia) on February 2, 2011. Cielo is a publicly traded company with its shares listed to trade on the TSX Venture Exchange (“**TSXV**”) under the symbol “CMC,” on the Frankfurt Exchange (“**DAX**”) under the symbol “C36”, as well as on the OTC Venture Market (“**OTCQB**”), under the symbol “CWSFF.” The Company’s strategic intent is to become one of the leading waste-to-fuel environmental technology companies using its environmentally friendly, economically sustainable technology. Cielo has a patented process that can convert waste feedstocks, including plastics, rubber, organic material, and wood derivative waste to fuel. Cielo’s business model is to source waste feedstocks from industrial producers and other suppliers and convert the feedstocks into fuels. Having demonstrated its ability to produce diesel and naphtha from waste, Cielo plans to further enhance its Aldersyde Facility and to construct additional facilities that will convert waste feedstocks to energy fuels, including diesel, naphtha, and kerosene. The diesel from Cielo’s distillate could be used in diesel engines. Kerosene could be suitable for aviation or marine jet fuel, and naphtha could be used to assist in transporting heavy oil. Cielo’s objective is to generate value from converting waste to fuel while ridding the world of unwanted and problematic waste.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This news release contains certain forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "anticipate", "achieve", "could", "believe", "plan", "intend", "objective", "continuous", "ongoing", "estimate", "outlook", "expect", "may", "will", "project", "should" or similar words, including negatives thereof, suggesting future outcomes.

Forward-looking statements are subject to both known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Company, that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking statements. Cielo is making forward looking statements, with respect to, but not limited to, the impact of the appointment of Ryan Carruthers to a leadership role on Cielo's success.

Investors should continue to review and consider information disseminated through news releases and filed by the Company on SEDAR. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

Forward-looking statements are not a guarantee of future performance and involve a number of risks and uncertainties, some of which are described herein. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause the Company's actual performance and results to differ materially from any projections of future performance or results expressed or implied by such forward-looking statements. Any forward-looking statements are made as of the date hereof and, except as required by law, the Company assumes no obligation to publicly update or revise such statements to reflect new information, subsequent or otherwise. Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV), nor OTCQB nor WKN, have reviewed, and do not accept responsibility for the adequacy or accuracy of, the content of this news release.
